

# Standard Terms

## Trade Waste Owner's Consent (Food Business)

### Allowing inspection

You must keep the grease trap accessible at all times. You acknowledge that, pursuant to section 177 of the Water Act 1989 (the Act), you must allow Greater Western Water access to the land at any reasonable time, but in an emergency at any time, to:

- measure trade waste flows; or
- take trade waste samples at the sampling points serving the grease trap; or
- inspect the grease trap or other fittings and works

### Complying with laws and other requirements

You must comply with the Act, your Trade Waste Owner's Consent and the Water (Trade Waste) Regulations 2014. If you fail to comply with the terms of your Trade Waste Owner's Consent, Greater Western Water may issue you with a Non-Compliance Notice. You will be required to respond to the non-compliant issue within the specified period. Failure to respond may ultimately result in the land being disconnected from our sewer.

Please refer to our overarching **Trade Waste Customer Charter** for information about trade waste services and the respective rights and responsibilities of Greater Western Water and its trade waste customers.

### Acceptance of terms and conditions

You acknowledge and accept these Standard Terms (Trade Waste Owner's Consent (Food Business)) and the conditions applying to your Trade Waste Owner's Consent upon payment of applicable fees.

If you enter into a lease for the land, call us on 9313 8366. Until you notify us that you have leased the land, you will be liable for all the charges outlined below.

### Paying charges

Your trade waste charge is determined in accordance with our Pricing Handbook and is currently **\$364.55** per annum applicable from the commencement date of the consent. This charge is for Greater Western Water's risk management costs and the administering of your Trade Waste Owner's Consent. We will send you a quarterly account. Read your **Trade Waste Charges Explained**.

### Amending the Trade Waste Owner's Consent

Greater Western Water can amend the conditions of the Trade Waste Consent or these Standard Terms (Trade Waste Owner's Consent (Food Business)) by notifying you of the amendment in writing.
