

Make a play kitchen

You will need:

- Cardboard boxes
- Plastic lids/containers
- Paint/markers
- Sticky tape/glue

Steps:

1. You could draw the hot plates and switches with markers or glue on lids, paper plates or bottle tops. Pots and pans could be made with foil pie plates and icy pole stick handles. Decorate with paint and markers.
2. Focus on working as a team and discussing ideas and plans as you go.
3. Make a sink with a red hot tap and a blue cold tap, discuss how water is used in the kitchen for cleaning, cooking and drinking.
