

# Water warriors vs water wasters

## Waterwise in the community

### You will need:

- Chalk
- Poster paper
- Drawing materials
- Your Water Warrior thinking and creativity

### Steps:

1. Create a chalk design on the footpath out the front of your house. Include a Water Warrior message and a cartoon image or symbol to encourage everyone to be Water Warriors. Maybe you could encourage your neighbours and local community to take 4 minute showers?
2. Are you good at cartoons? Draw an image of a Water Warrior superhero – what would you look like if you were a Water Warrior superhero? Design a cape, a superhero symbol, a special outfit.
3. Share your ideas about how to be a Water Warrior.
4. Use your device to create a stop motion animation showing your Water Warrior superhero and their water saving actions! Email your stop motion to some family and friends and then call them for a chat about how to be a Water Warrior.
5. Make a large Water Warrior poster to encourage your neighbours and community to be Water Warriors.
6. Stick it to your front window or letterbox on a sunny day when people are walking past and share it with the world – maybe you could encourage your whole community to be Water Warriors!
